

Firetech

FIRE, SAFETY & SECURITY SOLUTIONS

that *sense*
of *security*

that *sense*
of *security*

OUR BUSINESS IS ABOUT

protecting what
is important
to **you**

WE BELIEVE THAT PEACE OF MIND IS PRICELESS.

Firetech provide reliable fire, safety and security solutions that protect people, property, and assets. We are proud to carry an extensive portfolio of world-class brands.

From fire detection and suppression to intruder alarms, access control, video surveillance, to safety wear and equipment, we deliver solutions to meet both our clients' requirements and their budgets. We design solutions and services for a wide variety of clients and settings from private residences to commercial establishments as well as the marine industry.

Through our experienced and qualified team we provide an end-to-end service from the provision of a site-survey at no extra cost, system design and planning, through to the actual supply, installation and commissioning. We run a 24x7 call-out service and are also able to support many third party systems.

WHAT MAKES US DIFFERENT? WE PLACE A HUGE IMPORTANCE ON INTEGRITY.

Our customers rely on us and we are committed to maintaining high ethical standards. We promise value for money and a solution that fits what you really need. We offer honest advice, reliable products and a friendly service.

WHAT'S IMPORTANT TO US

1 *a relationship* with
our
clients

WE BELIEVE IN A PERSONAL AND PERSONABLE APPROACH

We look at each customer and each project individually. This ensures that we bring together the right engineering solution and the best value for money each time.

We are set up to be able to cater for **homes and private property**, as well as offices and commercial establishments alike.

Our **Corporate Division** is a highly specialised division within the company with a dedicated team of qualified technical staff and engineers. We work closely with a number of consultants, developers and M&E contractors, in order to provide comprehensive solutions, tailor-made to each specific project and development.

We have also earned an excellent reputation in the **Marine industry**. We provide servicing, repairs and maintenance of detection, fire-fighting and safety equipment installed on board vessels of any size or nature. Our operations are certified by Lloyds, ABS, DNV, Germanischer Lloyd and Wilhelmsen Ship Service, thereby offering an unparalleled level of service and quality.

2 *transparency*

WE UNDERSTAND THAT CLIENTS TODAY HAVE ACCESS TO CHOICE AND INFORMATION. WE EMBRACE THIS.

We believe that in order to obtain real faith in a product, access to the supplier is essential. We work closely with our suppliers to ensure that we provide an optimal solution and that no question remains unanswered.

3 *professional* and *reliable*

OUR PEOPLE ARE THERE TO LOOK AFTER YOU.

Our goals are to meet and exceed customers' expectations for quality, cost, performance and reliability.

We recognise that very little can be achieved without a team of highly motivated and experienced staff. Great attention is placed on ensuring that every team member is sensitive to customer needs, and the provision of a prompt service in all areas of our operation.

We believe in continual improvement.

Staff training is on-going and extensive. We are continually scouting the market for new products, new solutions, new technologies in order to allow us to provide the very latest solutions.

Our levels of service are annually audited by leading certification bodies.

we *don't*
leave anything
to chance

WE ARE COMMITTED TO QUALITY.

This has allowed us to establish ourselves as one of the leaders on the market. With projects ranging from private homes to public gardens, large enterprises, supermarkets and department stores, hospitals and care homes to government departments, super yachts and cargo vessels, we are geared to cater to all aspects of the Fire, Safety and Security market.

Fire

Prevention is better than cure

We offer detection systems ranging from simple kitchen smoke or gas detectors to complex air sampling systems programmed to provide an alarm in case of fluctuations in the composition of air in the premises. Our detectors also indicate the exact location of the smoke or gas allowing action to be precise and definitive.

We provide fire fighting equipment ranging from manual extinguishers to fully automated suppression systems incorporating the latest inert gas or water mist technology.

We also protect expensive kitchen equipment, sensitive IT hardware, switchgear, motors, vehicle engines and marine craft using the latest technology.

Our experienced in-house design engineers tailor make each system to provide the right custom-made solution.

As the risk of fire is always there, it is essential that fire detection and suppression systems are regularly serviced to ensure they are ready to perform when you need them most. This is why our skilled service teams are as important as the fire protection systems themselves. Our modern service centre at our premises in Qormi is fully equipped to provide the maintenance and servicing required.

we *can*
help you
take **CONTROL**

Safety

Safety equipment of all types to ensure employee safety at the workplace, specialised safety and rescue equipment, signage, first aid equipment, and safety lighting are all available from our retail outlet in Qormi.

We provide Safes ranging from compact point safes for the home to insurance rated commercial safes for the workplace from the world renowned German supplier Burg Wachter.

*providing a safe
work environment
or home is
our business*

peace of
mind
is priceless

Security

We provide a range of CCTV systems to protect your home and commercial premises. Our systems provide secure viewing both on site as well as remotely from your smart phone or laptop.

Our portfolio includes intruder alarms, access control, automated entry and exit barriers for small and large car parks, audio and video hall porters which all contribute towards keeping your property secure from intrusion and unauthorised access.

With the extensive support of leading suppliers we provide the latest in security at affordable prices. Cameras for external and internal use, weather or explosion proof equipment, IP or analogue technologies are all available.

Our Overseas Operations

Firetech has been present overseas for over 15 years. Our transparent and personal approach is a formula that has served us well locally as well as on projects overseas.

We specialise in the design, supply and commissioning of Extra Low Voltage systems and equipment for projects of any size. We provide experienced design, purchasing, and project management personnel and work in close liaison with local partners to provide our overseas clients with an entire team to deliver complete solutions.

We have extensive experience both in developed as well as remote areas, in particular in Libya and North Africa where projects have been satisfactorily delivered in the following sectors: Hospitals, Shopping Malls, Oil and Gas applications, Archives and Storage facilities, Hospitality & Tourism, Servicing and Garage Facilities.
